About National Commission for Women

The National Commission for Women was set up as statutory body (January 1992) under the National Commission for Women Act, 1990. The goals were to review the Constitutional and Legal safeguards for women, recommend remedial legislative measures, facilitate redressal of grievances, advise the Government on all policy matters affecting women and work towards accelerating the socio-economic development of women. The NCW enables women to achieve equality and equal participation in all spheres of life. Acknowledging that economic independence is the key to women's empowerment, NCW aims to create a lasting impact for women across the country.

Rehabilitation Council of India (RCI) is a statutory body to regulate and monitor services given to persons with disability, to standardize syllabi and maintain a Central Rehabilitation Register of all qualified professionals and personnel working in the field of Rehabilitation and Special Education. RCI has granted CRE (Continuing Rehabilitation Education) Status to this National Seminar. The rehabilitation professionals attending the workshop will earn the applicable CRE points.
